

# Double Head Solar Light with Remote Control

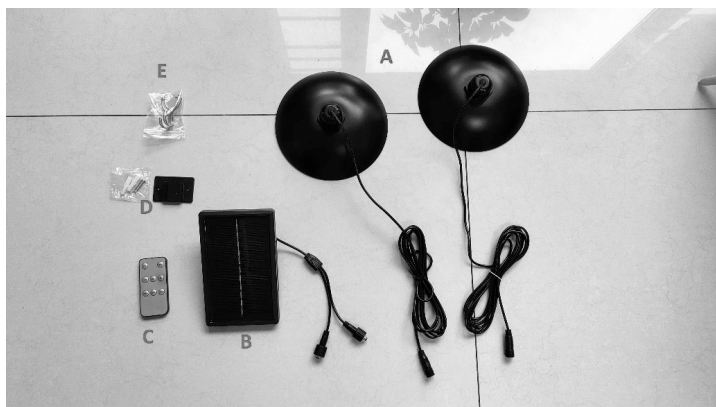

## INSTRUCTION MANUAL

Model No. 3491

Please read carefully before use and keep for future reference

### What is in the pack:

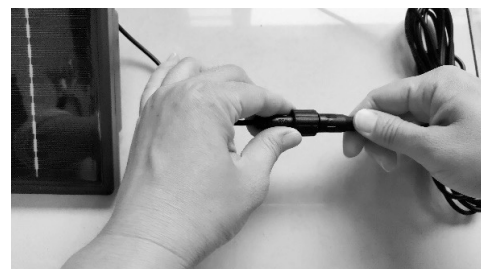

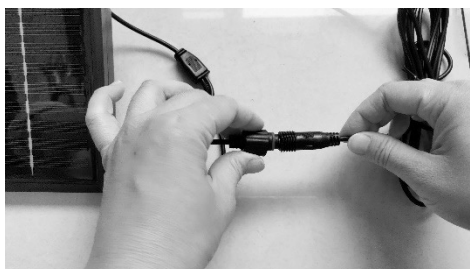

- A. 2 x lights
- B. Solar panel
- C. Remote
- D. Mounting bracket and fixings
- E. Hooks

### How to install the solar light:

Connect the lights to solar panel one by one.

Plug one of the connectors on solar panel into the connector of the light and screw until the thread is completely covered. Repeat the same for the other light.

Press the switch once to activate the lights.  
You will see the pair of lights flash when pressed.

Slide the mounting bracket on to the base of the solar panel.

Attach the solar panel at desired position by using supplied fixings.

The lights work by solar power. Ensure the solar panel is located under direct sunshine without any shade cover.

Solar panel is adjustable by 120 degree.

Hang up the lights using supplied hooks.

### **How to operate the solar light:**

Now the solar lights are activated.

Operate the lights by using supplied remote control.

Before using remote, remove the plastic insulator located at the battery tray at bottom of the remote.

To turn on the light, face remote to each of them and press ON to turn on and press OFF to turn off.

You can also set a timer (3H, 5H, or 8H) and brightness (25%, 50%, 100%) by using remote.
