# MIRACLE VANISH PEN

Clear coat surface scratch repair filler and sealer

**BEFORE USE:** Test on an inconspicuous area to ensure you are satisfied with the results and there are no adverse effects on your paint work.

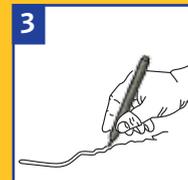

**Step 1**

With the tip in place, shake the Miracle Vanish Pen thoroughly with the cap on. Now the tip needs to be saturated with the formula.

**Step 2**

Prime the tip by pressing and releasing the pen onto a separate surface until fully saturated. This may take up to 50 presses.

**Step 3**

Apply to the damaged area in temperatures above 55°F / 13°C. Work rapidly, as the formula dries quickly in direct sunlight.

**Step 4**

Immediately wipe off any excess with a dry paper towel as the formula will harden very quickly. Allow to dry for up to 48 hrs. Deeper scratches may require multiple applications.

**THE RESULTS...**

**BEFORE**

**AFTER**

The specialist formula fills surface scratch marks, seals them and protects from corrosion. It can be used on any vehicle and any colour, giving a professional finish every time.

**EXTREMELY IMPORTANT: REPLACE CAP AFTER EVERY USE**

The Miracle Vanish Pen will dry quickly when exposed to sunlight - replace cap when the pen is not in use to prevent the tip from hardening.

**⚠ WARNING:** Keep away from children. Use in a well ventilated, shaded place, away from direct sunlight. The Miracle Vanish Pen should not make contact with the eyes, mouth or skin. If this occurs then please do the following:

**Skin:** Flush the effected area with clean, cold water.

**Eyes:** Flush with clean, cold water for 15 minutes and consult a doctor.

**Ingested:** Rinse mouth with clean, cold water and contact a doctor.
