

# Instant Door Screen

## INSTRUCTION MANUAL

Model No. EL6728 White / EL6820 Black  
Please read carefully before use and keep for future reference

### COMPONENTS (included with your order):

- A. 1 DOOR SCREEN - (2 part foldable mesh)
- B. 2 METAL HOOKS
- C. 2 WALL PLUGS
- D. 1 ROLL OF "HOOK & LOOP" TAPE
- E. 2 WHITE PLASTIC TUBES
- F. 1 ELASTICATED SECURING BAND

### INSTRUCTIONS

1. Determine which way you require the screen to open. If you require the screen to open into the room, the screen should be attached to the inside of the door frame, if you require the screen to open outside, you should attach the screen to the outside of the door frame/wall.
2. Clean the door frame/wall thoroughly and allow to dry.
3. Remove the backing from the roll of "hook & loop" tape and attach to the door frame/wall. Leave the tape on for approximately 2 hours prior to hanging the screen.
4. Unfold the Door Screen and attach one plastic tube on each side to prevent it from folding. Wrap the attached Velcro around the tubes to hold in place.
5. Attach the screen (loop side of the tape) to the "hook" tape side already on the door frame/wall.
6. Mark the door frame / wall for the position of the hook, this is found near the middle part of the screen (2 small loops). If fitting the screen to a metal or brick door frame/wall, use the wall plugs to secure the hooks in place.
7. To fold back the screen for storage: (remove the plastic tubes first)
  - A. Fold both parts together
  - B. Hold the folded screen with one hand (palm facing inwards)
  - C. Hold the opposite end of the screen with the other hand (palm facing outwards)
  - D. Twist both hands in opposite directions and allow to fold in by itself whilst double folding the screen.
  - E. Use the elasticated band to maintain the screen folded and store away.
